

KEITH G. LORIO, D.D.S.

### Our Financial Guidelines

We would like to take this opportunity to thank you for being an important member of our dental family and to assure you of our continued commitment to excellence. In order to control fees and to minimize the expense of billing and accounting, we have chosen to offer our patients several financial options.

Our office will accept assignment of your dental benefit plan once coverage is verified. One hundred percent of the co-payment amount is expected at the time of service. We will estimate the coverage and payment amounts based on the information provided by your insurance plans' allowances and limitations. There is a possibility that your insurance plan will pay less than the amount we estimate. It is your responsibility to pay the balance of your bill once insurance benefits have been received.

Payment is expected at the time of treatment. We accept cash, check, bank debit cards, MasterCard, Visa, and American Express. Financial options\* for treatment amounts over \$200 and for existing balances are available through our financial coordinator. Financial options must be agreed upon with our Financial Coordinator before treatment begins.

If insurance has not paid within sixty days you are responsible for the remaining balance. If and when insurance does pay, you will be reimbursed.

Appointments made have been reserved for you. Please let us know of a change in your appointment as soon as possible so the time reserved for you can be utilized. A \$50 fee will be charged for appointments cancelled/rescheduled without 24 hours notice.

Please check your preferred method of payment for services rendered:
